

FamilyCare, Inc.

Sector Focus: Healthcare

Serving Oregonians for over 20 years with integrity, dedication and innovation, FamilyCare is one of the oldest Medicaid Managed Care programs in Oregon. When FamilyCare moved to its new location in Portland, it sought workstations with low horizons to maximize natural light throughout the open office. The clean aesthetic of Equity® workstations not only fit FamilyCare's vision for the newly remodeled office, but also provided an efficient use of space with its 120 degree planning applications. The result: a flexible, light-filled, space-efficient workplace, designed for maximum performance.

A Reff® private office, cover, combines clean lines, rich textures and solid wood craftsmanship to bring a classic aesthetic to the FamilyCare workplace. This Reff® private office, left, features Reuter overhead and Series 2™ storage. Supportive EWC Sport™ task chairs are used throughout the FamilyCare office. Equity® workstations, top and bottom right, deliver sleek, hexagonal, planning options, creating functional yet attractive workspaces. In addition, Equity® workstation panels are constructed using more than 50 percent recycled materials and are available with 100 percent recycled fabrics.
